

AC WATERPROOF TRANSFORMER

IP67 industrial grade weatherproof Adopt high flux core, High quality 100% copper winding, sufficient power Wide working environment temperature range: -30°C-60°C Built-in overcurrent, short circuit and other complete functional protection to prevent circuit fire The product has undergone 100% full load high temperature aging test, low failure rate, This transformer is reliable and durable Support 10W-5000W multiple power/voltage customization.

CE CB RoHS IP67 IP68
